

Elevate For Teams Advanced Getting Started Guide

Elevate For Teams Advanced Quick Start Guide

New to Elevate For Teams Advanced? Read this guide to learn the basics.

Collaborate in Teams

Collaborate in Microsoft Teams using the Chat, Meetings and File sharing tabs.

Chat

Use chat to instantly connect and stay engaged anywhere, anytime in real time

Meetings

Start, schedule, or view upcoming meetings

Files

Access, share, and manage files in real-time

Communicate in Elevate

All cloud communications are handled via the Elevate tab in the Teams desktop application.

Voicemails

Manage, playback, or view voicemail transcriptions

Dialpad/Calling

Access company directory at-a-glance, manage and place calls

Company Messaging

Use an assigned company phone number to receive and send SMS from that number

SMS

Use SMS for sending and receiving one personal message at a time between two users

Call History

View your call history including all call activity or missed calls

The screenshot shows the Elevate Teams desktop application interface. The left sidebar contains icons for Activity, Chat, Teams, Calendar, Calls, Files, Elevate, and Apps. The main content area displays a list of contacts under the 'Elevate' tab, categorized into 'All', 'Favorites', 'Unite users', 'Company contacts', and 'Personal contacts'. The contacts list includes names, profile pictures, and extension numbers. A 'New call' dialog box is visible on the right side of the screen, showing a phone number input field and a list of contacts. The 'Elevate plugin for Teams' window is also shown, displaying a profile for Megan Craham, Account Manager, with an 'Incoming call' notification.

Advanced Hunt Groups
View and manage Advanced Hunt Groups

Incoming Calls
The Elevate Teams Desktop Plugin will pop-up to show an incoming call which you can choose to answer, send to voicemail, or ignore.

Installation

Elevate For Teams Advanced is easy to install.

[Get the Elevate mobile app here.](#)

Scan the QR code or download from the iOS or Android Store.

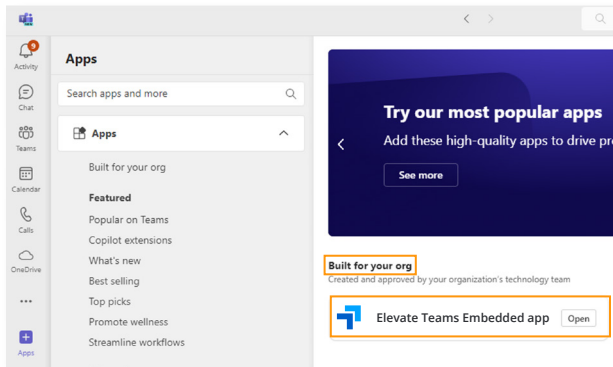

Sign In

STEP 1:

Log in to Microsoft Teams and select the **Apps** option in the sidebar to open the Teams app store.

- Under the Built for your Org section, click the 'Open' button for the Elevate Teams Embedded App.

- Right-click on the Elevate Teams Embedded App icon on the sidebar and select Pin to ensure that the App always remains visible on the Teams sidebar.

STEP 2:

Once the Elevate Teams Embedded app is installed, log in using your Elevate credentials.

STEP 3:

Download the Elevate Teams Desktop Plugin installer by clicking on the download link in the Unite Teams Embedded App. Launch the installer and accept the license terms.

You can now begin using your Elevate For Teams Advanced license in the embedded Teams app.

SMS for Elevate Teams Embedded Desktop App

Sending SMS

SMS is a 1-1 communication that can be sent two different ways from the Desktop app.

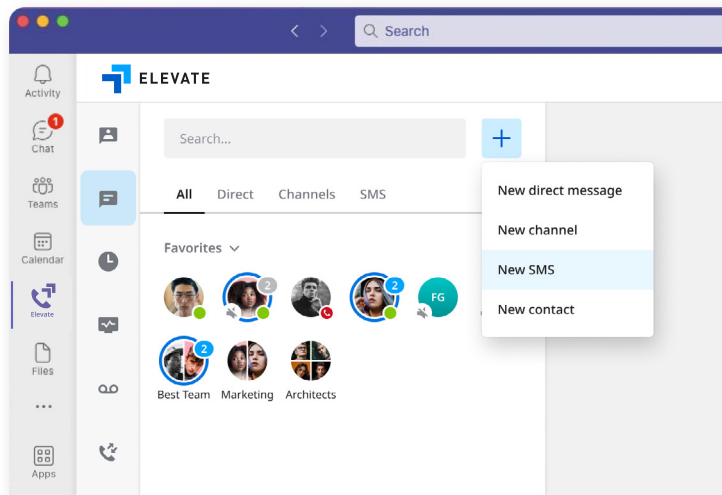

From a Contact Card

An option to send SMS is available in Contact Card. Search for a person or choose from your Favorites and select SMS to start writing your message.

From New SMS

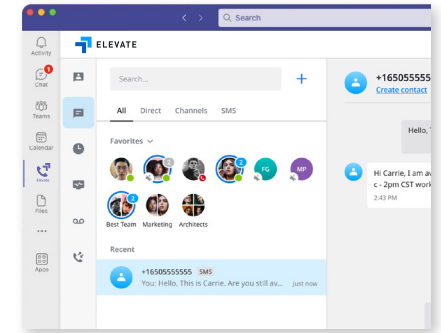

Simply select the + icon to create a New SMS. You can also choose an existing SMS chat which will have a grey SMS note on top.

Receiving SMS

Received SMS messages look almost like received chat messages. Once you receive a new SMS, it will pop up under the Chat section with a sign SMS next to it.

You will also receive a Missed message from notification, just like you do with chat messages

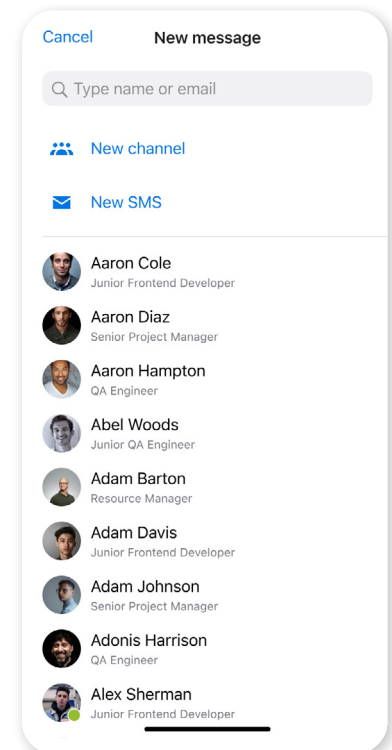

SMS for Elevate Mobile App

Sending SMS

Navigate to the New Message section. Choose New SMS and enter a 10-digit number or search contacts for the destination. All contacts having phone numbers outside your organization (private or corporate) will be displayed.

Then type the text and click Send icon. You can also choose an existing SMS chat which will have a grey SMS note on top.

Calling

Place, receive and manage calls in two ways:

- **Computer:** Use computer speakers and microphone for calls (can use Bluetooth headset or headphones)
- **Deskphone:** Use hardware (desk phone) for calls (Call Controller mode available in Q4 2024)

Call settings

Calling device

Choose which device you'd like to use to make calls

☒ Computer

Use computer speakers and microphone for calls

[Edit the emergency address](#)

☐ Deskphone

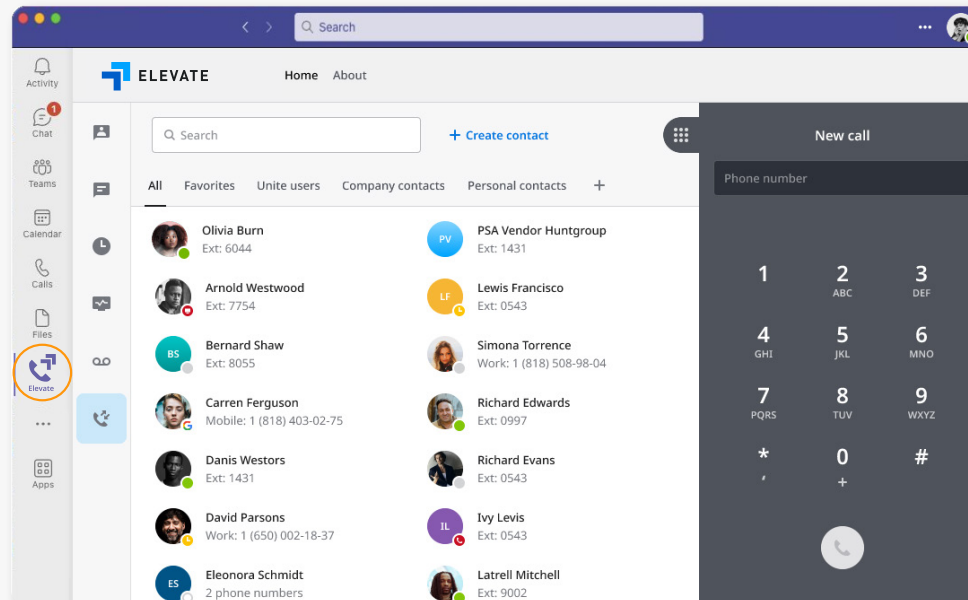

Use deskphone for calls

Calling features vary based on calling mode.

FEATURE/APP MODE	PLACE A CALL	RECEIVE A CALL	3-WAY CALLING	MUTE/UNMUTE	HOLD	DTMF	CALL FLIP	CALL PARK	TRANSFER	END CALL
Computer	●	●	●	●	●	●	●	●	●	●
Desk-phone	●	Desk Phone		Desk Phone	Desk Phone	Desk Phone	●	●	●	●

Place calls and view contacts

Place calls to internal and external contacts, search and view company contacts at-a-glance, and switch between pre-defined filters to manage calls.

Elevate Mobile App

Take your work with you, wherever you go

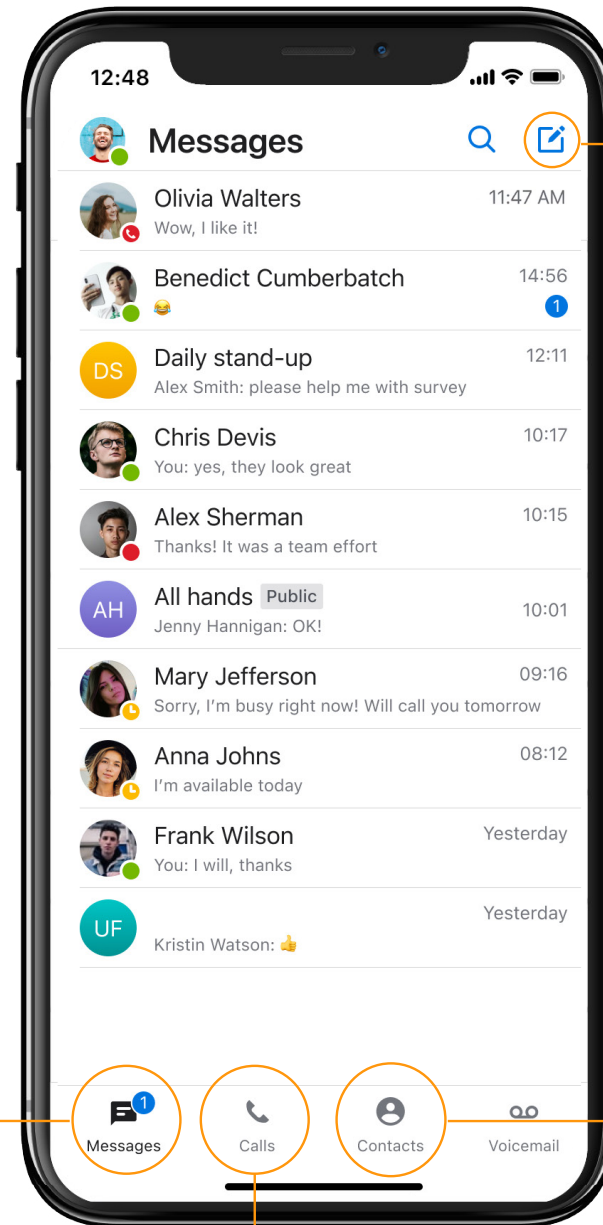

Call and send/receive SMS from your mobile device with the Elevate mobile application.

All messages sync across desktop and mobile apps!

The screenshot shows the Elevate Teams desktop application interface. The top bar is purple with the Elevate logo and a search bar. The left sidebar contains icons for Activity, Chat, Teams, Calendar, Calls, Files, Elevate, 8x8, and Vonage Business. The main content area displays the user profile for Carrie Dixon, who is available. The profile section includes a 'Log out' button, a 'Set your status message' button, and a list of settings: Call settings, Hunt groups, Application settings, Voicemail settings, and Audio settings. To the right of the profile is a 'My profile' section with contact information: Ext 1431, Work +16505551212, and Mobile +16504917894. Below the profile is a 'Send feedback' button. At the bottom, there are two status bars: 'Teams Embedded App: 2.7.387' and 'Teams Desktop plugin: 1.2.231'.
